# Purpose

Create a WWI propaganda poster.

# Student Guide

A PDF of the student guide is provided to students during the assignment. Give copies to students or enable them to print the guides themselves when they reach the assignment at the end of the lesson.

# Preparations/Alternatives

- Teachers must provide students with presentation, drawing, word-processing, or artistic software.

- Teachers must determine the best manner for saving student work. Teachers should become aware of their institutions' computer-usage policies and protocols, as many computer labs do not allow users to save work on individual computers.

- Teachers must also determine the best way for students to retrieve images for their propaganda posters.

- Many institutions employ firewalls and may restrict access to the Internet.

- Teachers may choose to extend the assignment by giving students the opportunity to present their posters to their peers.
