

Family Support for Imagine Language & Literacy

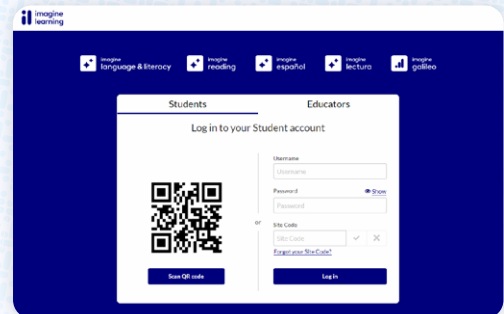

Be a part of your student's learning journey

GET STARTED!

Help your student log in to [Imagine Language & Literacy here](#)* using the school-assigned username and password or the site code.

If your district uses a single sign-on (SSO) portal, follow the instructions from your student's teacher.

Now you're ready to support your student and track their progress in Imagine Language & Literacy.

● Imagine Language & Literacy Login Portal

WHAT TO EXPECT FOR YOUR STUDENT

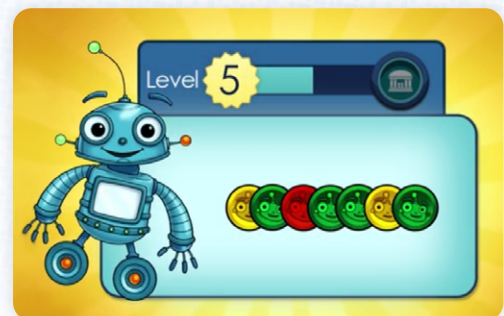

Students start with a benchmark assessment, which measures their skill level and decides their personalized learning path. Imagine Language & Literacy then adapts as they use it, helping them learn, practice, and master skills, such as:

- Letters and sounds
- Spelling
- Rhyming
- Reading comprehension
- Vocabulary
- And more!

RACK UP THE BOOSTER BITS!

When students complete activities in the program, they earn rewards called booster bits which can be spent on creating and customizing their avatars. They can also use rewards to visit the Imagine Museum and play special games.

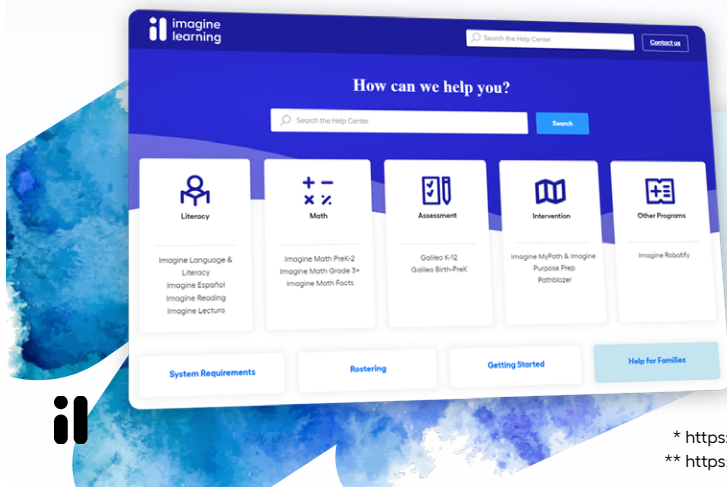

Be sure to ask your student about their booster bits and avatar!

● Customizable avatar

Help Your Student Thrive in Their Learning

Stay connected to your student's teacher

Regularly checking in with your student's teacher can help keep your student on track in the program — they'll even show you how to monitor your student's work at home. We recommend connecting with the teacher to review their literacy, oral vocabulary, and grammar progress and areas where your student needs more support or more of a challenge.

Create a way for your student to excel at home

At-home support and encouragement are valuable. Try these tips to keep your student engaged and focused:

- Choose a comfortable, distraction-free space as a work area for your student
- Create a plan, such as 'focus time' and 'break time,' to help them connect and succeed
- Make sure your student has Wi-Fi and a charged device, such as a laptop, tablet, or smartphone
- Show interest in what your student is reading about with questions like, "What did your learning focus on today?" or "What questions do you have about the lesson?"

Why Imagine Language & Literacy?

Designed to support core literacy, Imagine Language & Literacy is an online program that uses interactive games, books, songs, and videos to improve students' reading and language proficiency.

It regularly screens students' skills, uses ongoing assessments, and collects data, so teachers have what they need to make decisions to support each learner. The award-winning lessons make a big difference for student users:

- **38%** of bilingual learners outperform their peers
- Texas users **doubled** their gains compared to peers on the state assessment
- **41%** of learners with special education designations outperform their peers
