GET STARTED!
Help your student log in to Imagine Learning EL Education™ using the information provided by your student’s school.

If your district uses a single sign-on (SSO) portal, follow the instructions from your student’s teacher.

Now you’re ready to make the most of the following tips.

WHAT TO EXPECT WITH IMAGINE LEARNING EL EDUCATION
In the Imagine Learning EL Education content-based curriculum, students dive deeply into engaging topics and use knowledge to develop literacy skills.

Real-world topics are brought to life in the classroom as students develop high-quality, authentic work through research and collaboration.

VIDEOS THAT HELP FAMILIES
Module Overview Videos provide an outline of the module, setting the stage for what students will explore next. They offer suggestions for communicating with your student so families can engage with their learning at home.

Help your student thrive in their learning

Connecting with your student’s teacher

Checking in with your student’s teacher can help keep your student on track and help you monitor their work at home. We recommend connecting with the teacher to review your student’s progress and participation, as well as the skill areas where they need more support or more of a challenge.

Create a way for your student to excel at home

At-home support is key to success. Try these tips to keep your student engaged and focused:

- Choose a comfortable, distraction-free space as a work area for your student
- Create a plan, such as ‘focus time’ and ‘break time,’ to help them connect and succeed
- Make sure your student has Wi-Fi and a charged device, such as a laptop, tablet, or smartphone
- Watch the Module Overview Videos for suggestions on how to extend learning at home

Why Imagine Learning EL Education?

Every student deserves the opportunity to become a strong reader. In Imagine Learning EL Education, K–8 students build strong reading skills through compelling, real-world content and learn the science of reading through:

- **Foundational skills** that build word recognition (alphabetic principle, phonological awareness, decoding, and sight word recognition)
- **Language comprehension skills** that support strategic reading (content knowledge, background knowledge, language structure, verbal reasoning, and theory of mind)
- **Bridging skills** that predict reading (print concepts, vocabulary knowledge, morphological awareness, and self-regulation skills)
- **Self-regulation skills** that support fluent, skilled reading

This content-based curriculum focuses on equity, emphasizes social and emotional learning, and engages students with rich text to build deeper literacy skills.

More learners, nationwide
