

# Concept Coaching

## Get real-time academic tutoring from an expert.

Edgenuity's Concept Coaches are available six days per week for one-on-one tutoring in English language arts, science, math, and social studies. Our expert tutors are available directly from the student's online classroom on-demand whenever the student needs help. Concept Coaches use online chat tools, as well as an interactive white board or web conferencing platform as needed, to demonstrate and model how to work through difficult concepts. Students can use this feature any time they need help.

Our Concept Coaches can supplement your own teachers by offering the following benefits:

- Deliver concept demonstration and tutoring in English language arts, math, science, and social studies courses regardless of whether school is in session or not.
- Assist students as they work at their own pace and on their own schedule.
- Offer real-time individualized and interactive concept demonstration and guidance for each student.
- Provide on-demand support through chat tools and whiteboard software.
- Assist students in credit recovery labs, blended learning classrooms, or those working from home when teachers may not otherwise be available.

Empower your students to succeed in core subject areas.

Edgenuity's Concept Coaches are available six days per week, Monday through Saturday from 7:00 a.m. to 11:00 p.m. EST.
