## Table of Contents

<b>SCIENCE 800 COURSE OVERVIEW .....</b>	<b>1</b>
UNIT 1: OUR ATOMIC WORLD.....	1
UNIT 2: PERCEIVING THINGS .....	2
UNIT 3: PHYSICAL GEOLOGY.....	2
UNIT 4: HISTORICAL GEOLOGY .....	2
UNIT 5: OCEANOGRAPHY.....	2
UNIT 6: BALANCE IN NATURE .....	3
UNIT 7: SCIENCE AND TOMORROW .....	3
UNIT 8: THE SOLAR SYSTEM.....	3
UNIT 9: ASTRONOMY.....	4
UNIT 10: REVIEW .....	4

## Science 800 Course Overview

Science 800 is a basic intermediate course intended to expose students to the designs and patterns in the physical universe. This course expands on Science 600 and Science 700, providing a set of basic scientific skills and a broad survey of the major areas of science. Some of the areas covered in Science 800 include the structure and properties of matter, measurement and mathematics of science, geology, oceanography, natural cycles and resources, science today and tomorrow, and astronomy.

The curriculum seeks to develop the students' ability to be aware of and participate in scientific inquiry. The units contain experiments and projects to capitalize on the students' natural curiosity. The students will explore, observe and manipulate everyday objects and materials in their environment. Students at this level should show understanding of interrelationships between organisms and the environment, recognize patterns in systems, and expand their knowledge of cellular dimensions of living systems. Collectively, this should help students develop and build on their subject-matter knowledge base.

- **Our Atomic World:** Students will use their main senses for observation of the world around them and describe the atomic structure of different elements.
- **Perceiving Things:** Students will explore different quantities and how to measure them and use graphs to display and analyze data.
- **Physical Geology:** Students will identify different types of geological changes.
- **Historical Geology:** Students will discuss how the layers of the Earth's crust can show history.
- **Oceanography:** Students will describe the different parts of the ocean, both living and non-living.
- **Balance in Nature:** Students will discuss the balance in nature regarding the various cycles.
- **Science and Tomorrow:** Students will explore the relationship between science and society and its possible effects on the future.
- **The Solar System:** Students will explore the solar system and its components.
- **Astronomy:** Students will explore celestial bodies and describe how to make distance measurements and make observations of objects in the universe.

Unit 1: Our Atomic World	
Assignments	
Science 800	1. Course Overview
	2. Scientific Method
	3. Science Safety
	4. Project: Scientific Inquiry
	5. Project: Descriptive Statistics
	6. Quiz 1: Science and Chemistry
	7. Chemistry Review
	8. Project: Chemical Reactions
	9. Structure of Matter
	10. Radioactivity
	11. Quiz 2: Matter and Radioactivity
	12. Energy and Temperature
	13. Calorimetry
	14. Experiment: Calorimetry
	15. Quiz 3: Thermodynamics
	16. Atomic Nuclei
	17. Nuclear Energy
	18. Project: Reactors
	19. Quiz 4: Atomic Nuclei and Nuclear Energy
	20. Applications and Environmental Hazards
	21. Quiz 5: Applications and Environmental Hazards
	22. Review
	23. Special Project*
	24. Test
	25. Alternate Test*
	26. Glossary and Credits

Unit 2: Perceiving Things		
Science 800	Assignments	
	1. Measurement: The Metric System	14. Experiment: Mass of Gas
	2. Measurement: Size and Distance	15. Measurement: Mass
	3. Measurement: Area	16. Quiz 4: Mass
	4. Quiz 1: Measurement	17. Density
	5. Graphs: Uses, Bar, and Line	18. Buoyancy and Specific Gravity
	6. Graphs: Pictographs and Pie Charts	19. Quiz 5: Density, Buoyancy, and Specific Gravity
	7. Project: Making Graphs	20. Perceiving Things
	8. Quiz 2: Graphing Data	21. Review
	9. Volume	22. Special Project*
	10. Experiment: Determining Volume	23. Test
	11. Measurement: Volume	24. Alternate Test*
	12. Quiz 3: Volume	25. Glossary and Credits
	13. Mass	

Unit 3: Physical Geology		
Science 800	Assignments	
	1. Earth Structures	11. Earth Movements
	2. Internal Structures	12. Experiment: Specific Gravity
	3. Igneous Structures	13. Experiment: Gravity
	4. Project: Volcanoes	14. Plate Tectonics
	5. Mountains	15. Quiz 3: Earth Movements
	6. Quiz 1: Earth Structure	16. Review
	7. Earth Changes	17. Special Project*
	8. Erosion and Sediment	18. Test
	9. Oceans	19. Alternate Test*
	10. Quiz 2: Earth Changes	20. Glossary and Credits

Unit 4: Historical Geology		
Science 800	Assignments	
	1. An Observational Science	9. Geography and Time (Part 2)
	2. Sedimentary Rock	10. Project: Relative Dating
	3. Fossils	11. Quiz 2: Measuring Time
	4. Fossil Formation: Location and Local Deposits	12. Review
	5. Crustal Changes	13. Special Project*
	6. Quiz 1: An Observational Science	14. Test
	7. Determining the Earth's Age	15. Alternate Test*
	8. Geography and Time (Part 1)	16. Glossary and Credits

Unit 5: Oceanography		
Science 800	Assignments	
	1. History of Oceanography	10. Chemistry of the Ocean
	2. Techniques for Investigation	11. Physical Properties of the Ocean
	3. Submersible and Satellite Research	12. Project: Marine Report
	4. Project: The Moon and Tides	13. Quiz 3: Fishing and Ocean Properties
	5. Quiz 1: History of Oceanography	14. Review
	6. Geology of the Ocean	15. Special Project
	7. Turbidity, Sedimentation, and Currents	16. Test
	8. Quiz 2: Geology of the Ocean	17. Alternate Test
	9. Commercial Fishing	18. Glossary and Credits

Unit 6: Balance in Nature		
Science 800	Assignments	
	1. Photosynthesis and Food	15. DNA
	2. Cellular Respiration	16. Project: Genetics
	3. Food	17. Mutations
	4. Quiz 1: Photosynthesis and Food	18. Experiment: Seed or Seedless
	5. Natural Cycles	19. Experiment: Pea Pod
	6. The Water Cycle	20. Historical Genetics
	7. Other Natural Cycles	21. Evolutionary Genetics
	8. Quiz 2: Natural Cycles	22. Quiz 4: DNA, Mutations and the Environment
	9. Balance and Disruption	23. Review
	10. Human Disruption	24. Special Project*
	11. Resources	25. Test
	12. Humans and Genes	26. Alternate Test*
	13. Project: Impact of Humans	27. Glossary and Credits
	14. Quiz 3: Balance and Disruption	
Unit 7: Science and Tomorrow		
Science 800	Assignments	
	1. The Biosphere	11. Quiz 3: People and Their New Frontiers
	2. Agriculture and Waste	12. Project: Digital Transmissions
	3. Population	13. Quantum Theory
	4. Quiz 1: People and Their Land	14. Quiz 4: Modern Technology
	5. Energy Sources	15. Review
	6. Nuclear Power	16. Special Project*
	7. Industry and Transportation	17. Test
	8. Quiz 2: People and Their Work Environment	18. Alternate Test*
	9. Outer Space	19. Glossary and Credits
	10. Inner Space	
Unit 8: The Solar System		
Science 800	Assignments	
	1. Our Solar System	11. Jupiter and Saturn
	2. Project: Solar System Model	12. Uranus, Neptune, and Pluto
	3. The Sun	13. Project: Planet Comparison
	4. Ability to Orbit	14. Quiz 3: The Planets
	5. Quiz 1: The Solar System	15. Review
	6. Earth and the Moon	16. Special Project*
	7. Moon and Lunar Cycles	17. Test
	8. Earth Orbit and Seasons	18. Alternate Test*
	9. Quiz 2: The Earth	19. Glossary and Credits
	10. Mercury, Venus, and Mars	

Science 800	Unit 9: Astronomy	
	Assignments	
	1. History of Astronomy	11. Quiz 2: Beyond Our Solar System
	2. Astronomy and Measurement	12. Gathering Light with Telescopes
	3. The Universe	13. Other Types of Telescopes
	4. Measuring the Universe	14. Project: Telescopes
	5. Quiz 1: The Universe	15. Quiz 3: Telescopes and Optics
	6. Asteroids, Comets, and Meteors	16. Review
	7. Stars and Constellations	17. Special Project*
	8. Project: Beyond Our Solar System	18. Test
	9. Space Explorations	19. Alternate Test*
	10. Project: Astronomy Timeline	20. Glossary and Credits

Science 800	Unit 10: Review	
	Assignments	
	1. Final Exam	3. Glossary and Credits
	2. Alternate Exam*	

(\*) Indicates alternative assignment
