What's new in this release

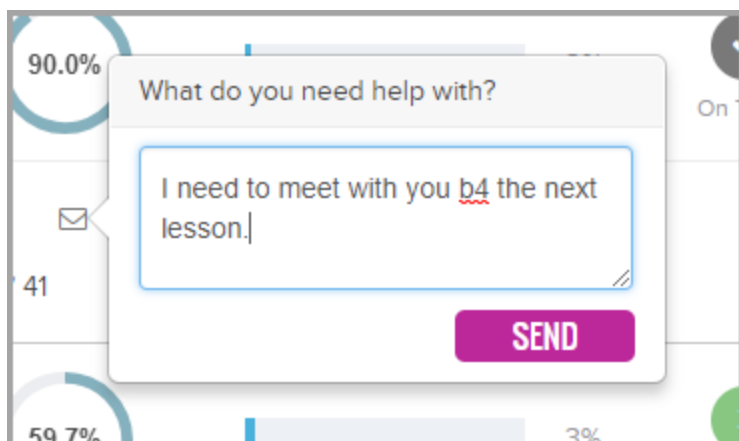

Odysseyware release v2.43 includes a new Messaging feature for students.

A Message tool next to the teacher's name on the new Learner Dashboard lets the student easily write a message to the teacher for the course.

The new Learner Dashboard, introduced in this release, allows students who need help or want to ask their teacher a question about an assigned course, to easily send the teacher a message.

When composing the message, the student uses the same process as when asking for help with assignments.

The teacher gets a New Message in the **Activity Stream** tab of their **Home** page.

And also in their **Inbox** on the **Messages** tab. This type of message is a person-to-person message and uses the person-to-person symbol  and has the same Actions.

Communicate with teachers and students using internal messaging

Odysseyware® provides an internal messaging system that allows admins, teachers, and students to communicate with each other in the form of person-to-person messages. A student can send an assignment help-needed request directly to the teacher which links the message to the assignment question for easy access by the teacher. A student can also message a teacher for an enrolled course to ask a question or request a conference and the teacher can quickly respond. Admins and teachers have an additional message type, known as system-generated messages, that allows them to receive messages from the Odysseyware support system in the form of system notifications.

Tip: The internal messaging system is only used for communication and notification within Odysseyware; no external communication or notification is available. However, teachers and admins can also export several message types to a PDF format so that the message details can be shared externally with others, such as parents and guardians.

Messaging has several features just like a typical email system. You have an Inbox and Sent box. You can read, reply to and forward messages. One difference to note with Odysseyware messaging is that you must archive messages that you no longer want in your Inbox or Sent list; you cannot delete them.

Your school's Admin user controls whether or not the teachers and students can use the internal messaging system.

Note: By default, the internal messaging system permission is enabled at the school level, but can be disabled for an individual student. The student can still send help requests while working on assignment questions and message teachers while on their Courses "Learner Dashboard" page and can read their teachers' responses.

However...if the internal messaging system permission is disabled at the school level, the **Messages** tool on the main nav bar is grayed-out or appears inactive. The student permission, "Allow Message Send", is also disabled. Students can send help requests from assignments and course messages to teachers, which teachers can read, but only help requests from assignments will send the responses back to students to read.

Who you can communicate with

Who you can communicate with using internal Messaging depends on your user role.

User role	Communication options
Student	Can only send messages to and receive messages from their teacher(s).
Teacher	Can send messages to and receive messages from admins, all teachers, students assigned to their courses, students that the Teacher registered in Odysseyware, and groups that they are the owner of.
Super Teacher	Can send messages to and receive messages from admins and all teachers, groups that they are the owner of, students assigned to their courses, and students that have the same Campus IDs as the Super Teacher (if the Super Teacher has the "Restrict to Campus" permission enabled for their user profile).
Admin	Can send messages to everyone, including groups owned by them and others, and receive messages from other admins, teachers, and students assigned to courses where the Admin is the teacher of record.

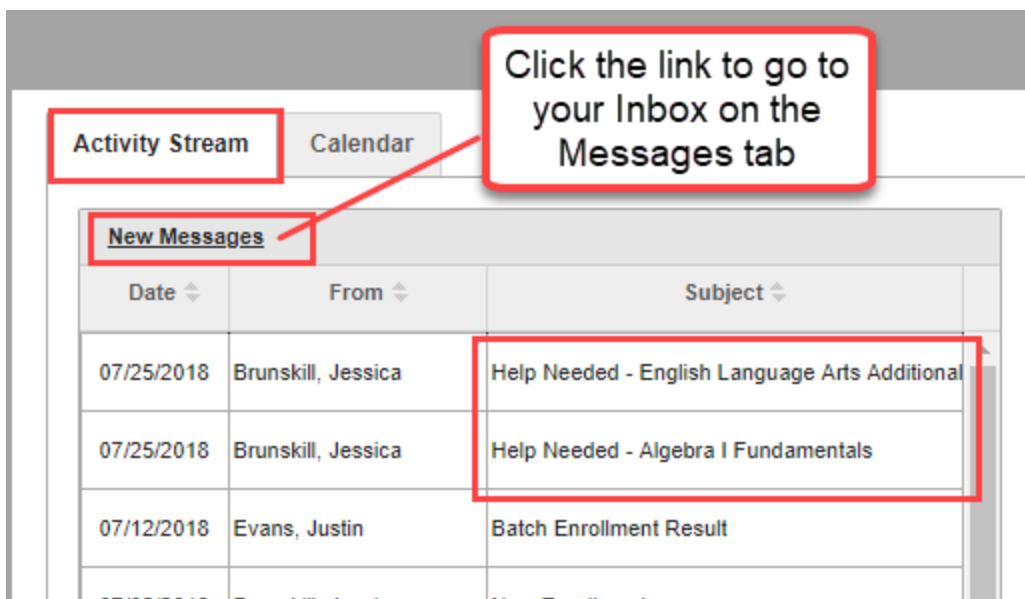

New messages indicators

On the **Home** page, several indicators are immediately visible to let you know that you have new, unread messages that may need your attention:

- On the main nav bar, a red indicator with a number appears next to the **Messages** tool.

- On the **Activity Stream** tab, the **New Messages** list displays the latest unread messages in your **Inbox**. You see the date each message was received, who sent the message to you, and the subject line of the message.

If you are a teacher or admin with assigned courses and a student sends an assignment help-needed message, you see:

- A **Help Request** on the **Activity Stream > Actions** tab.

Access your messages

To access your messages, do one of the following:

- On the main nav bar, click the **Messages** tool. This action takes you to the **Messages** tab and displays your **Inbox**. See ["Messages tab" on the next page](#).
- Click the **New Messages** link to go to your **Inbox** on the **Messages** tab.

You can also access an assignment help-needed message from a student by doing one of the following:

- Click the **Help Request** link on the **Actions** tab.
- On the **Gradebook > Action Required** tab, click the **Assignment** link.

Tip: To quickly open an unread message, click it in the **New Messages** list. Tools (buttons) on the **Message** page allow you to take action with the message, such as closing or archiving it. Depending on the type of message, you may be able to forward, reply, or export the message. When you open a message and take action, it is removed from the **New Messages** list, but the message remains in the list on the **Messages** tab.

Messages tab

By default, the **Messages** tab displays **All messages** (unread and read) in your **Inbox** in chronological order by date and time when received. Unread messages appear in bold text and read messages are in normal text.

The screenshot shows the Messages tab interface. Callout A points to the 'All Messages' dropdown menu. Callout B points to the 'New Message' button. Callout C points to the 'Inbox' dropdown menu. Callout D points to the 'Type' column header. Callout E points to the 'Preview' column. Callout F points to the 'Actions' column.

Filter, sort, and search your Messages list

By default, the **Messages** tab displays **All messages** (unread and read) in your **Inbox** in chronological order by date and time when received. Unread messages appear in bold text and read messages are in normal text.

You can filter, sort, and search the list to find a specific message or messages with a specific subject. Depending on the filters you choose, the column headings on the list may change. For example, when viewing Sent messages, the To column appears in place of the From column.

Action	Do the following...
Filter list to see only archived or sent messages	<ul style="list-style-type: none"> From the Inbox list, select Archived. From the Inbox list, select Sent. 
Filter list to see read or unread messages	<p>By default, the list displays All Messages (read and unread).</p> <ul style="list-style-type: none"> To see only read messages, select Read Messages. To see only unread messages, select Unread Messages. 
Search for messages by sender/receiver or subject	<p>In the row immediately below several column headings are blank smart search boxes.</p> <ul style="list-style-type: none"> Start typing in any smart search box and once you have entered at least three characters, the list is filtered to match the entered characters. 
Sort list	<ul style="list-style-type: none"> Click to the right of a column heading name to display an ascending/descending control. Sort the column.
Reset list (clear search filters)	<ul style="list-style-type: none"> To reset the list after entering search characters, delete the characters in the text box. Press Enter.

Page through the list

As the list grows, use the item number and paging controls located at the bottom of the page to view all items.

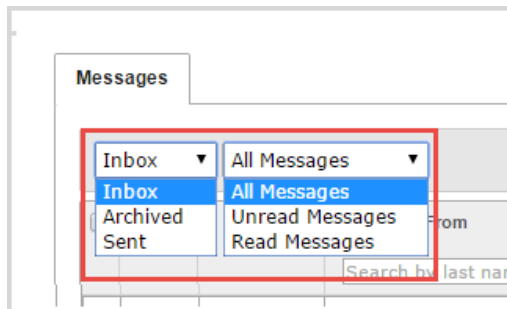

- From the list, select the number of items you want displayed on the page.
- Use the paging controls to move forward or backward through the pages.

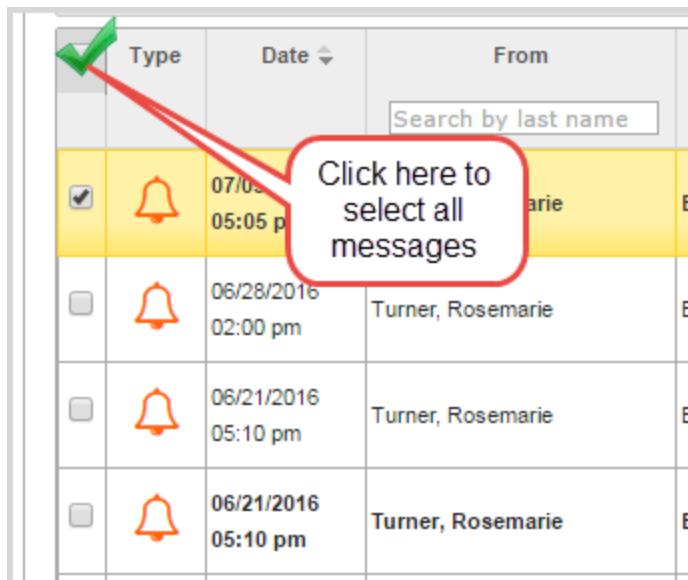

Mark messages as Read or Unread

When you open a message, the message is automatically marked as Read. If desired, you can easily mark a message as Read or Unread. By default, the Inbox displays all messages - read and unread - in chronological order by date and time when received. You can filter the Inbox list to see Archived or Sent messages.

1. On the main nav bar, click **Messages**.
2. To filter the list to see only unread messages in the **Inbox**, from the **All Messages** list, select **Unread Messages**. Or, change the **Inbox** filter to show **Sent** or **Archived** messages.

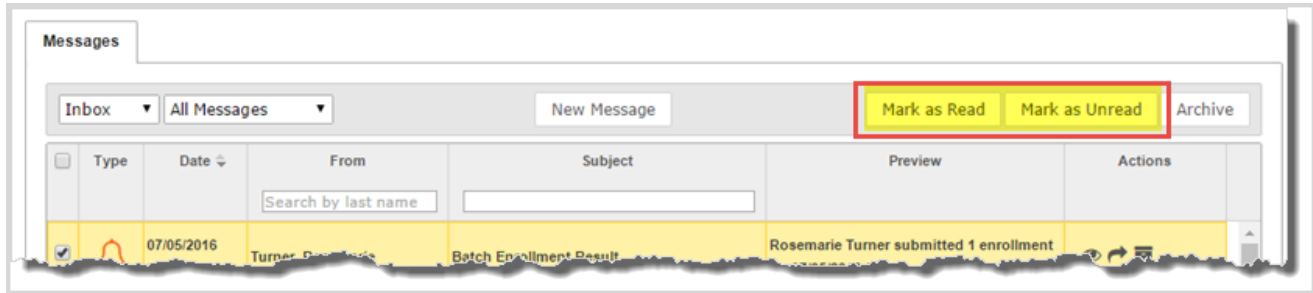

3. To select a message to mark as Read or Unread, click the check box next to the **Type** column, or to select all messages, click the check box in the column heading.

4. Click **Mark as Read** or **Mark as Unread**.

Mark messages as Read or Unread

Depending on the filters you applied, the message, or messages, are removed from the list.

Write and send messages

Odysseyware provides multiple ways to send write and send messages to students, student groups, and other users (depending on your user role). You can:

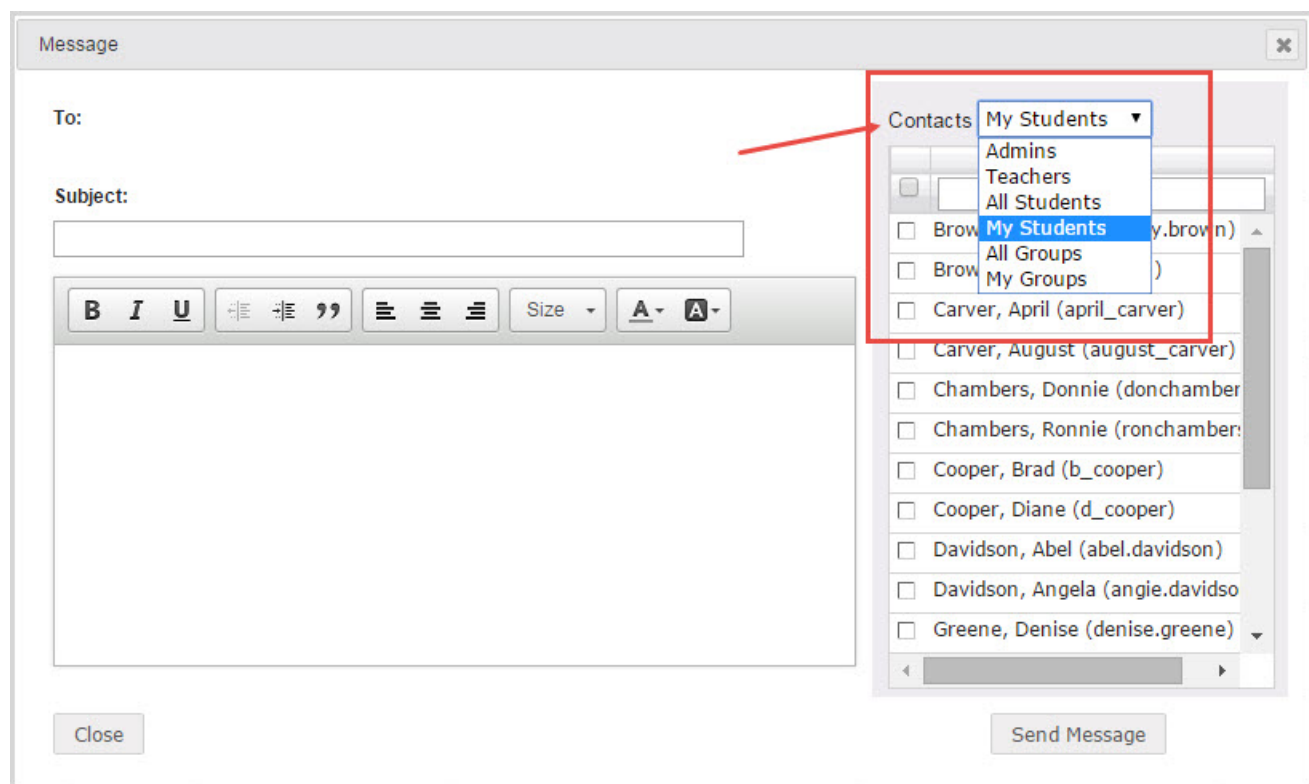

- "Write and send messages from the Messages tab" below.
- "Write and send messages to students while viewing their progress" on the next page.
- "Write and send messages to students enrolled in your courses" on page 18.
- "Write and send messages to students while grading assignments" on page 20.

Write and send messages from the Messages tab

1. On the main nav bar, click **Messages**.
2. On the **Messages** tab, click **New Message**.

The Message page appears.

3. To select the message recipients, do the following:
 - a. From the **Contacts** list, select a type of contact to filter the list. Depending on your user role, the types of contacts you can select from may include **All Students**, **My Students**, **Admins**, **Teachers**, **All Groups**, and **My Groups**.

The screenshot shows a 'Message' dialog box with a 'To:' field, a 'Subject:' field, and a rich text editor. A red box highlights the 'Contacts' dropdown menu, which is open and showing a list of contact types: 'My Students', 'Admins', 'Teachers', 'All Students', 'My Students' (highlighted), 'All Groups', and 'My Groups'. Below the dropdown is a list of individual contacts, each with a checkbox and a name/username. The 'Send Message' button is at the bottom right, and the 'Close' button is at the bottom left.

Or

In the search field, start entering the first few characters of the person's name or username.

Tip: You can start typing the contact's name in the blank box to filter the list to only show contacts that match the characters you enter.

- b. If you selected either **All Groups** or **My Groups**, from the **Groups** list, select a group.
- c. Click the check box for the contact(s). By default, if you selected a group, all of the group members appear as selected on the **Group Members** tab and their names are automatically placed in the **To** field of the message. To remove a group member from the recipient's list, clear the check box.

The screenshot shows a messaging interface. At the top, there are two dropdown menus: 'Contacts' set to 'All Groups' and 'Groups' set to 'chandler campus'. Below these are two tabs: 'Group Members' (which is selected and highlighted with a red box) and 'All Students'. Under the 'Group Members' tab, there is a list of group members. Each member has a checkbox to its left. The checkboxes for 'Davidson, Abel (abel.davidson)' and 'Davidson, Angela (angie.davidson)' are highlighted with a red box. Other members listed include Bigelow, Bentley (ben_bigelow), Brown, Tim (tim.brown), Feathers, Connie (cfeathers), McAuliffe, Betty (betty.mac), and Paulo, Steve (s_paulo).

- d. Follow steps a - c to continue adding recipients to the message.
4. Enter the **Subject** of the message.

Tip: As you are typing the subject and message, the automated spelling check tool will underline words in red that it feels are misspelled. You can keep the word as is or fix the spelling.

5. Type the message in the large box below the format toolbar. You can use the formatting tools to change the look and structure of the message.
6. When you are satisfied with the contents and recipients, click **Send Message**.

Based on the number of message recipients, your Sent list contains a message for each recipient. For example, if you sent the message to 12 recipients, your Sent list contains 12 person-to-person messages.

Write and send messages to students while viewing their progress

Using the internal messaging system, you can write and send a message to a student, or a student group, while you are viewing and managing their assignments.

1. On the main nav bar, click **Gradebook**.
2. On the **Grading** tab, in the **Student** field, enter the first few characters of the student's first or last name, student ID, or campus ID. Select the student from the list of matching results.

Or

Write and send messages to students while viewing their progress

If you want to locate a group of students, in the **Group** field, enter the first few characters of the group name. Select the group from the list of matching results.

- Click **Search**.

The student's name(s) appears with all enrolled courses listed below it.

- If you have more than one student, for example, you searched for a student group, for any student, click the **New Message** tool.

Write and send messages to students while grading assignments

Using the internal messaging system, you can write and send a message to a student while you are viewing an assignment. The **Teacher Assignment** view has a **New Message** button that allows you to send a message to the student while you are viewing the questions, answers and contents of their assignment.

- Do one of the following to open and view an assignment:
 - On the **Home** page, in the **Assignment Alerts** list, in the **Title** field, click the assignment title link.
 - On the main nav bar, click **Assignment Alerts**, and then in the **Title** field, click the assignment title link.
 - On the **Gradebook > Grading** tab, search for a student or course. In the search results, expand the course to the assignment level, and then click the assignment title.
 - On the **Gradebook > Action Required** tab, in the **Assignment** field, click the assignment title link.

The **Teacher Assignment** view appears.

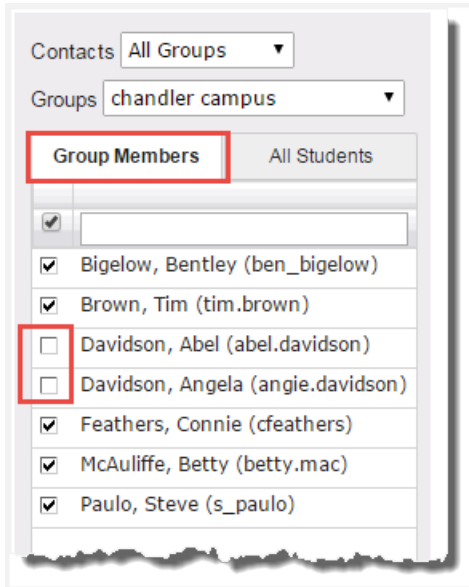

- Click the **New Message** button.

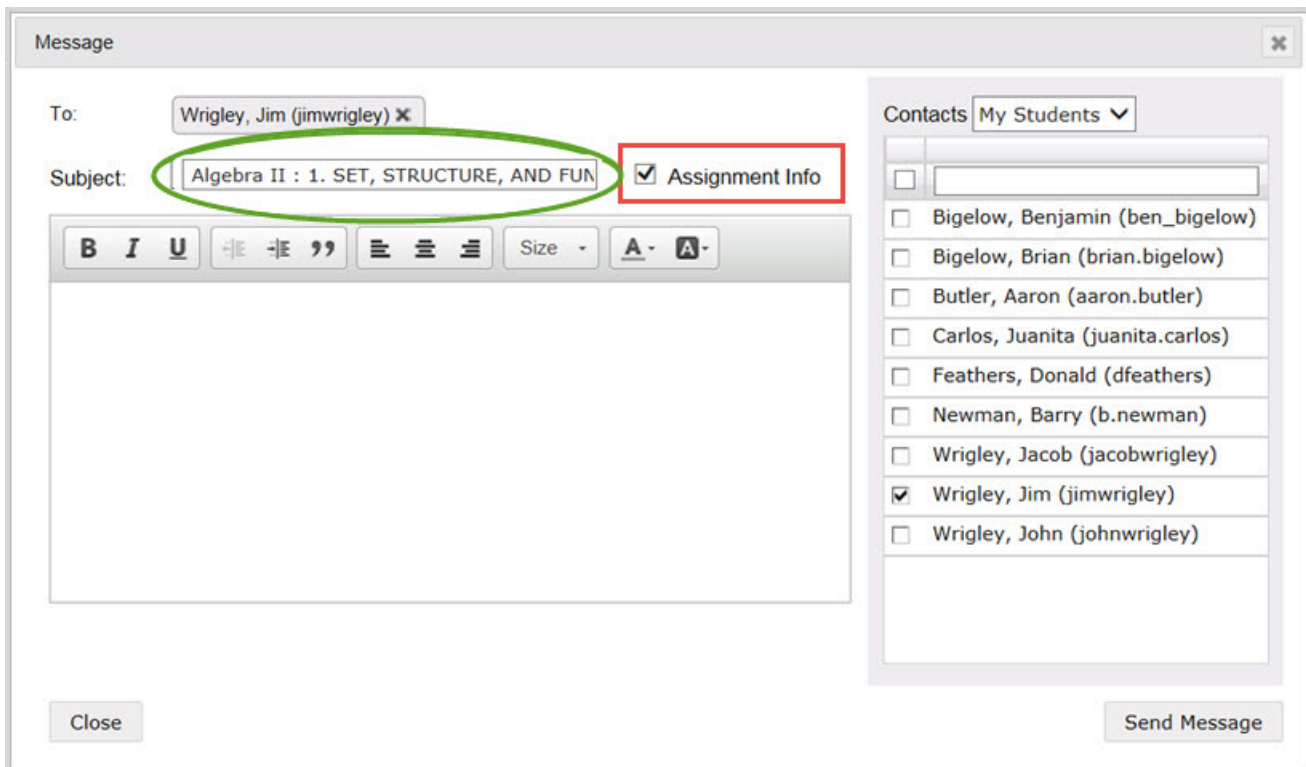

The **Message** page appears with the student's name in the **To** field. If you want to send the message to a student group, go to the next step. If you are only sending the message to one student, go to step 4.

- To send the message to a group, from the **Contacts** list, select **All Groups** (Admins and Super Teachers only) or select **My Groups**.
 - From the **Groups** list, select a group.
 - By default, all of the group members appear as selected on the **Group Members** tab and their names are automatically placed in the **To** field of the message. To remove a group member from the recipient's list, clear the check box.

Write and send messages to students while grading assignments

4. To include the assignment information as the subject of the message, click the **Assignment Info** check box. Otherwise, enter a subject and message contents.

5. Click **Send Message**.

Based on the number of message recipients, your **Sent** list (accessed from the **Messages** tab) contains a message for each recipient. For example, if you sent the message to four students, your **Sent** list contains four person-to-person messages as shown in this example. For more information, see ["Messages tab" on page 8](#).

Respond to and take action on messages

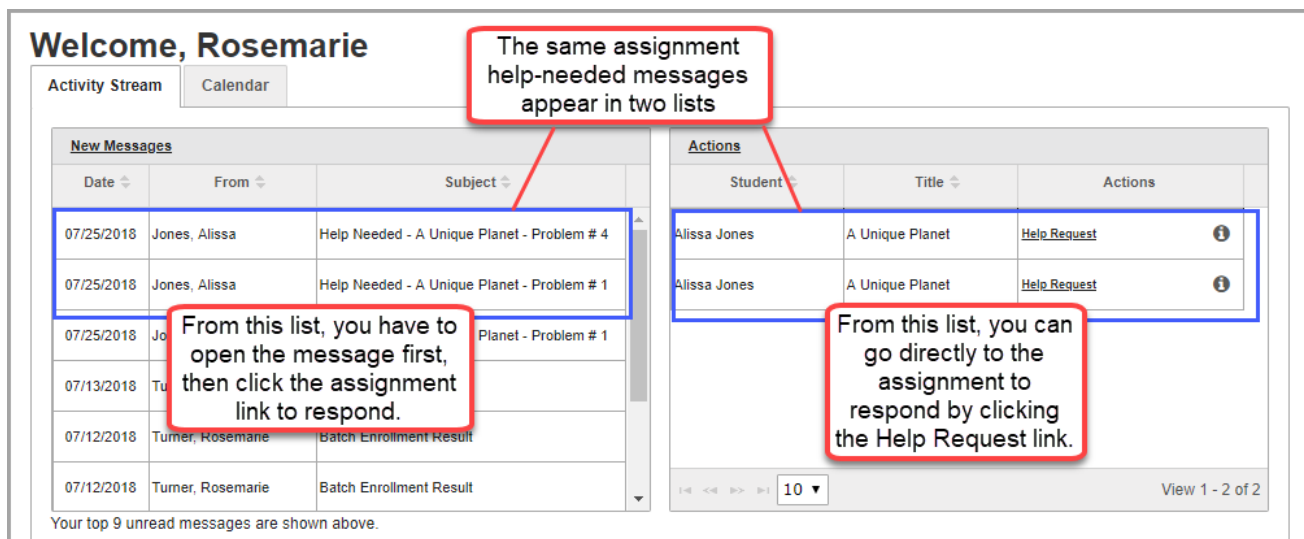

Now that you know how to access your messages, what you see on the **Messages** tab, and how to write messages, this section explains:

- How to respond to assignment help-needed messages from students. See ["Read and respond to assignment help-needed messages from students" below](#).
- How to respond to person-to-person messages, including student messaging for help with a course. See ["Read and respond to person-to-person messages" on page 26](#).
- The importance of system-generated messages and actions you can take for these types of messages. See ["Importance of system-generated messages" on page 28](#).
- How to export messages to PDF format to share with others. See ["Export person-to-person and assignment help-needed messages as PDFs" on page 30](#).
- How to forward messages to other internal users. See ["Forward messages" on page 32](#).
- How to archive and unarchive messages. See ["Archive and unarchive messages" on page 34](#).

Read and respond to assignment help-needed messages from students

When students need help with a specific question in an assignment, they can send the teacher a message using the **Ask For Help**  **ASK FOR HELP** button below the question. Messages sent by students from within an assignment, using the Help button, have "Help Needed" in the Subject line and provide a link in the message itself to the assignment.

1. Use one of the following ways to read and respond to assignment help-needed messages:
 - From the **Home > Activity Stream** tab, click the message in the **New Messages** list or in the **Actions** list, click the **Help Request** link.

Welcome, Rosemarie

The Help request opens on top of the assignment in the **Teacher Assignment** view as shown in this example.

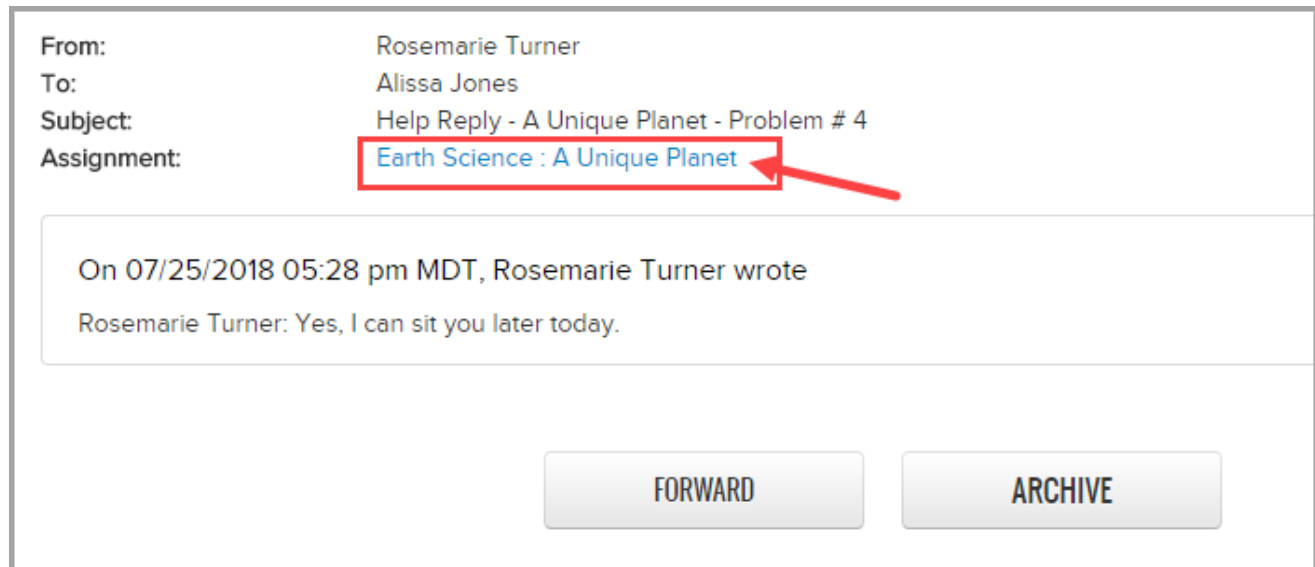

2. Enter your reply in the text box and click **Reply**.
3. To close the Help request, click the Close [X].

This next set of steps explains the message response for the student.

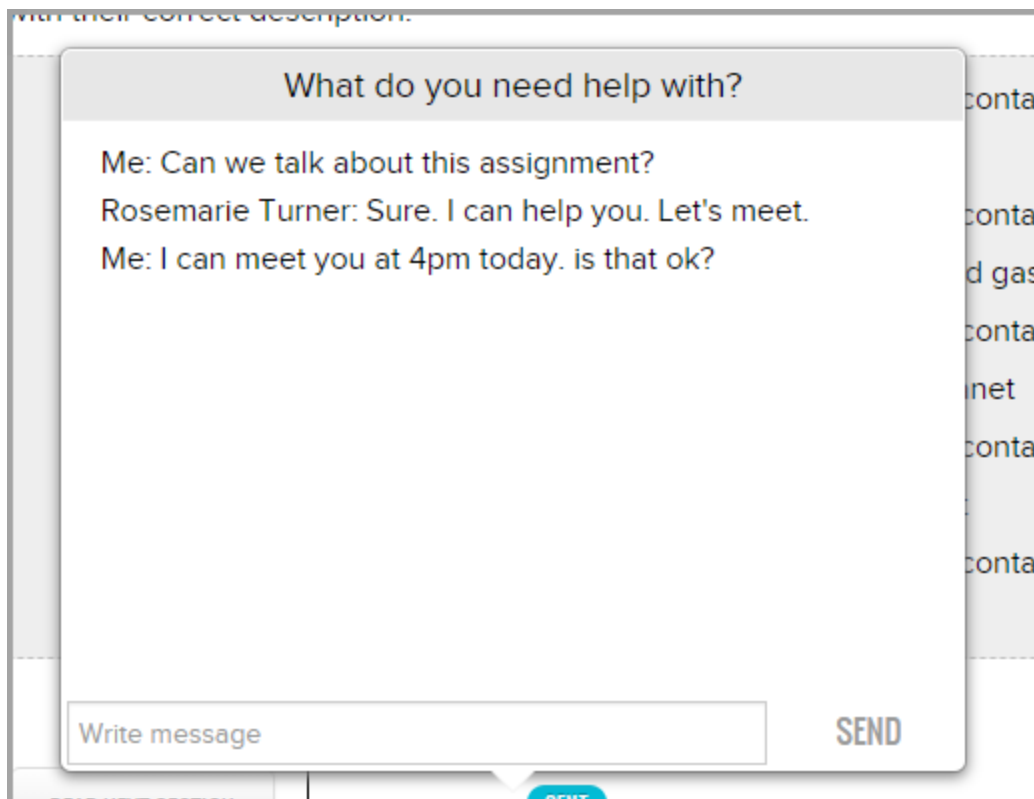

1. If the student is working in Odysseyware, they see the new messages indicator that appears next to the **Messages** tool on the main nav bar. Otherwise, when they log in, the new messages indicator visually tells them that a new message has arrived.
2. The student clicks **Messages**, and then clicks the message from the teacher.

Turner, Rosemarie Help Reply - A Unique Planet - Problem # 1 Rosemarie Turner: Sure. I can help you. Let's meet.	07/25/2018 04:43 pm	>

3. The student clicks the **Assignment** link to open the assignment.

4. The student reads the teacher's reply and can respond to it.

Read and respond to person-to-person messages

Replying to a person-to-person message is as simple as replying to an email message in any email program. A person-to-person message uses this symbol  as its visual indicator in your **Messages** list.

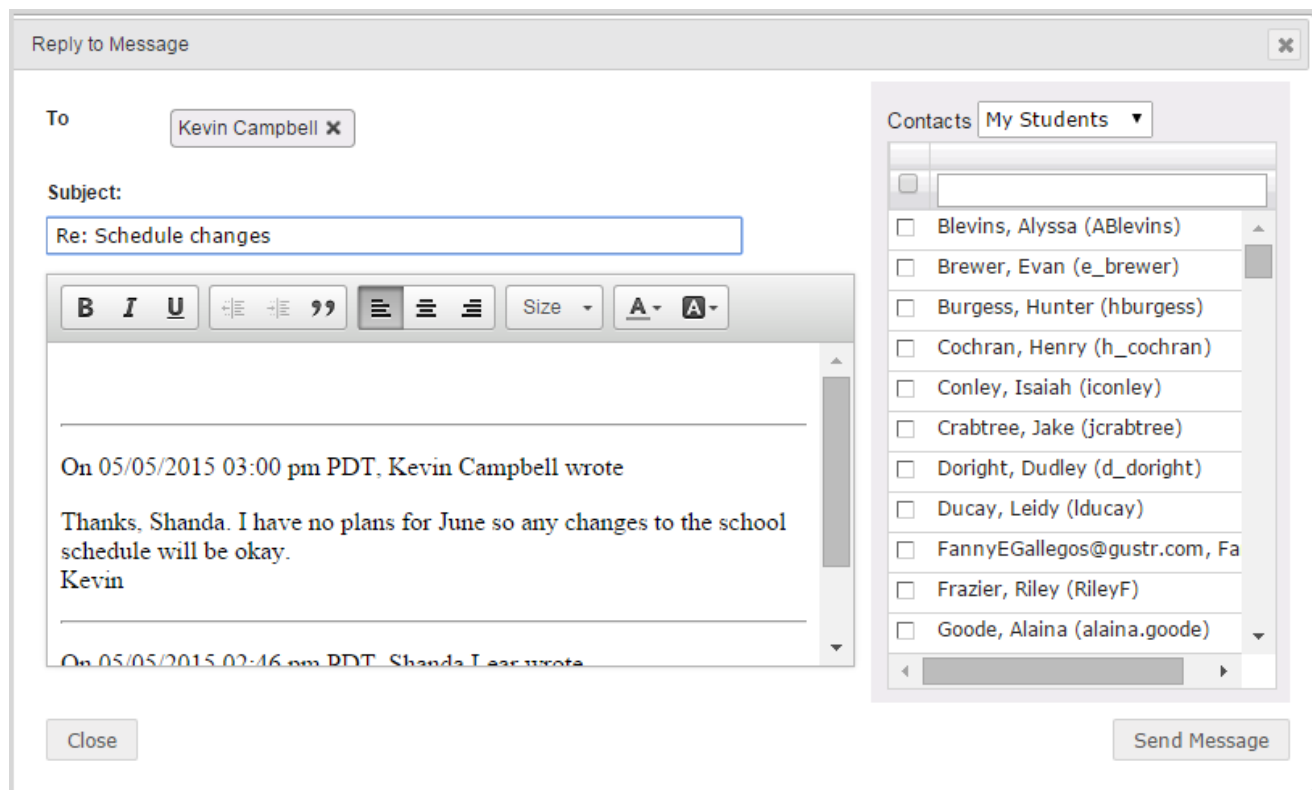

Tip: When a student sends a message to the teacher for the course, that type of message has the subject of "Help Needed - [Course Name]" and uses the person-to-person  message symbol and has the same actions as a person-to-person message.

1. On the main nav bar, click **Messages**.
2. Use the **Type** column sort filter to sort the list in ascending order by message type so that any person-to-person messages are at the top of the list.
3. To read the message, under **Actions**, click the **View message**  tool.
4. To reply to the message, click the **Reply** button.

Tip: To reply to a message without reading it, under **Actions**, click the **Reply**  tool.

The **Reply to Message** page appears with the sender's name in the **To** field and the original subject and message content.

5. You can keep the default information that appears or delete it. To add more recipients, do the following:
 - a. From the **Contacts** list, select a type of contact to filter the list. Depending on your user role, the types of contacts you can select from may include **All Students**, **My Students**, **Admins**, **Teachers**, **All Groups**, and **My Groups**.

Or

In the search field, start entering the first few characters of the person's name or username.

Tip: You can start typing the contact's name in the blank box to filter the list to only show contacts that match the characters you enter.

- b. If you selected either **All Groups** or **My Groups**, from the **Groups** list, select a group.
 - c. Click the check box for the contact(s). By default, if you selected a group, all of the group members appear as selected on the **Group Members** tab and their names are automatically placed in the **To** field of the message. To remove a group member from the recipient's list, clear the check box.
6. When finished, click **Send Message**.

Importance of system-generated messages

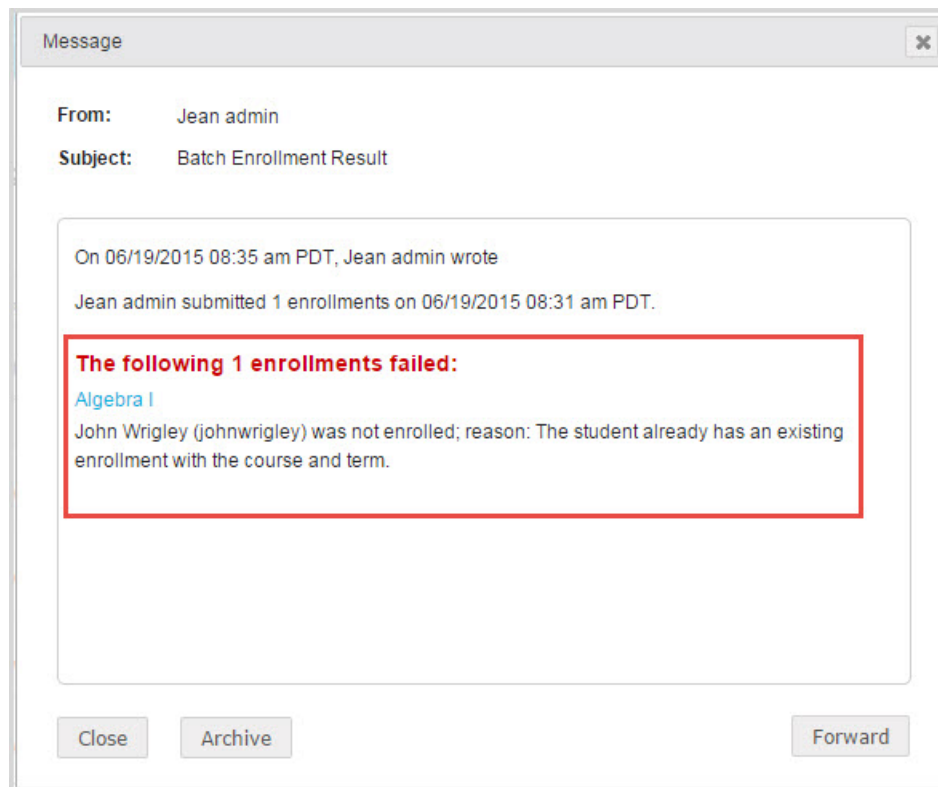

System-generated messages occur when:

- An enrollment changes, such as an enrollment has been transferred to another teacher (Subject = Enrollment Change).
- A new enrollment has occurred (Subject = New Enrollment).
- A new enrollment is processed by the Odysseyware system (Subject = Batch Enrollment Result).
- System support notifies the teacher of record that an enrollment may soon be archived and the teacher may need to take action (Subject = Notification to teacher regarding pending archival action).
See
- System support notifies the teacher of record that a student has completed a course (Subject = Notification of completed course).
- System support notifies the school Admin that a student attempted to use their Single Sign-On (SSO) credentials and an association for the student could not be found in Odysseyware (Subject = Unassociated Login Attempt).

You will want to read system-generated messages, especially after enrolling students, because with a Batch Enrollment Result message, you are notified if any enrollments failed to be created as shown in this example.

Read and take action on system-generated messages

Read and take action on system-generated messages

Tip: System-generated messages also appear in **New Messages** list on the **Home > Activity Stream** tab.

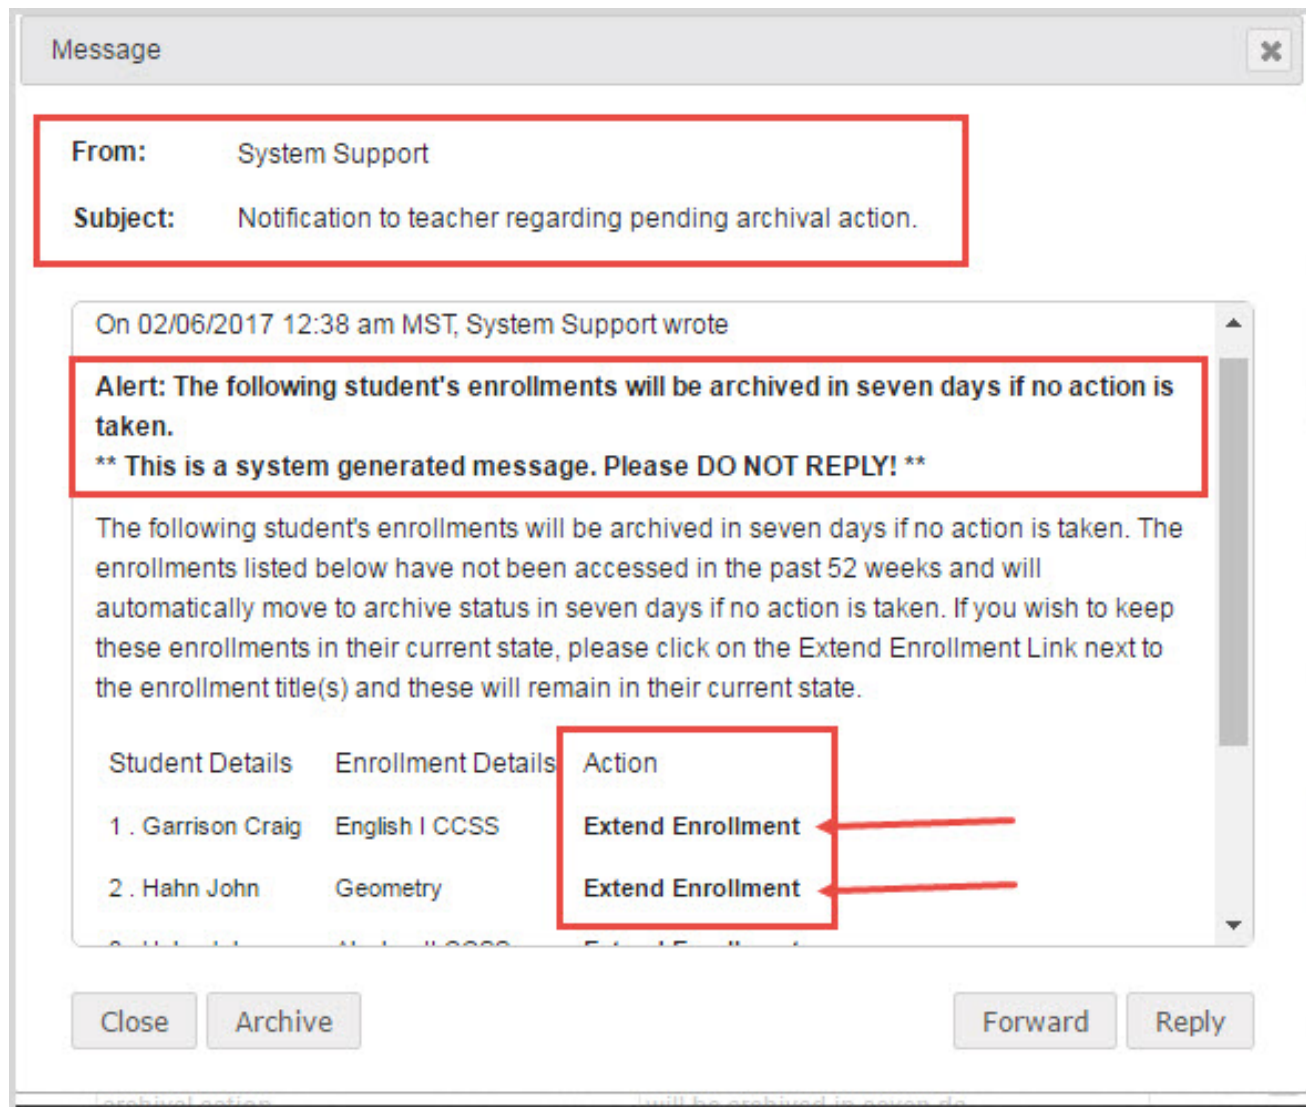

1. On the main nav bar, click **Messages**.
2. A system-generated message uses the bell  symbol. Use the **Type** column sort filter to sort the list in ascending order by message type.
3. To read the message, under **Actions**, click the **View message**  tool.
4. If desired, do one of the following:
 - If you do not want to take action, click **Close**.
 - If the message is for a pending archival action for an enrollment, you can extend the enrollment. See ["How auto-archiving enrollments happens and how teachers can respond"](#) below.
 - To archive the message, click the **Archive** button. See ["Archive and unarchive messages"](#) on page 34.
 - To forward the message, click the **Forward** button. See ["Forward messages"](#) on page 32.

How auto-archiving enrollments happens and how teachers can respond

If an enrollment is in Active or On Hold status and the student has not opened any assignment in the enrollment for the period of one year (52 weeks), then the system will automatically move the enrollment to Pending Archive status. At this point, the Teacher of Record (TOR) for the enrollment is sent a message to their Inbox seven days in advance notifying of the pending archival action.

When opened, the message content looks like this:

- If desired, to extend the enrollment and keep it in its current state, the TOR can click the **Extend Enrollment** link in the message.

Export person-to-person and assignment help-needed messages as PDFs

You can export your person-to-person messages and assignment help-needed messages as PDFs so that you can share the communication details with others. When you export a message that has multiple communication efforts (threads), if you select the most recent message, the entire communication thread is exported. You can export unopened and opened messages.

There are multiple ways to export a message as a PDF. You can:

Export person-to-person and assignment help-needed messages as PDFs

- [Export an unopened message from the Messages tab.](#)
- [Export an opened message from the Messages tab.](#)
- [Export an opened message from the Home page > Activity Stream > New Messages tab.](#)

Export an unopened message from the Messages tab

1. On the main nav bar, click **Messages**.

By default, the Messages tab displays **All messages** (unread and read) in your **Inbox** in chronological order by date and time when received. Unread messages appear in bold text and read messages are in normal text.

2. (Optional) To filter the list to see only unread or read messages in the Inbox, from the **All Messages** list, select **Unread Messages** or **Read Messages**. Or, change the **Inbox** filter to show **Sent** or **Archived** messages.

3. Under **Actions**, click the **Export**  tool.

The message downloads as a PDF. Depending on your browser, you may be given the option to keep the subject as the name of the PDF or you can change it. The file may show on a tab at the bottom of the page.

4. Click to open the file, or just attach the pdf file to an email in an external email program.

Rita,

I am still setting up the school. Have patience. I will send out the schedule soon.

Export an opened message from the Messages tab

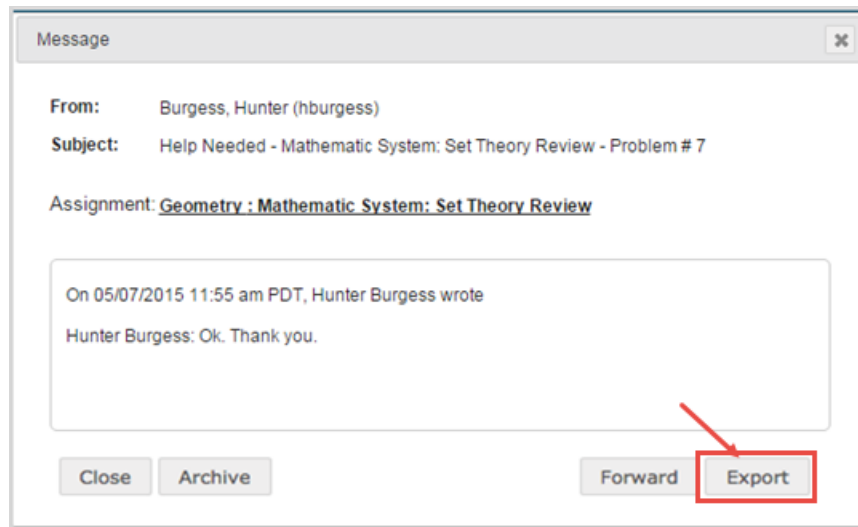

1. On the main nav bar, click **Messages**.

By default, the Messages tab displays **All messages** (unread and read) in your **Inbox** in chronological order by date and time when received. Unread messages appear in bold text and read messages are in normal text.

2. (Optional) To filter the list to see only unread or read messages in the Inbox, from the **All Messages** list, select **Unread Messages** or **Read Messages**. Or, change the **Inbox** filter to show **Sent** or **Archived** messages.

3. To open the message, double-click it.

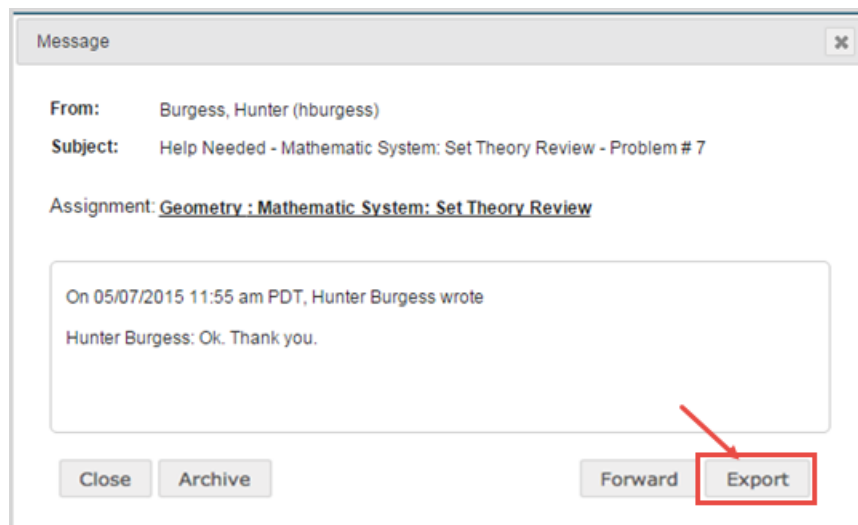

4. Click the **Export** button.

The message downloads as a PDF. Depending on your browser, you may be given the option to keep the subject as the name of the PDF or you can change it. The file may show on a tab at the bottom of the page.

Export an opened message from the Home page > Activity Stream > New Messages tab

1. On the main nav bar, click **Home**.
2. On the **Activity Stream** tab, in the **New Messages** list, click a person-to-person or help-requested message to open it.
3. Click the **Export** button.

The message downloads as a PDF. Depending on your browser, you may be given the option to keep the subject as the name of the PDF or you can change it. The file may show on a tab at the bottom of the page.

Forward messages

You can forward any type of message to others. When you forward a message, the **To** field is empty and you must select at least one recipient. You can forward unopened and opened messages.

Forward an unopened message

Forward messages

1. On the main nav bar, click **Messages**.

By default, the Messages tab displays **All messages** (unread and read) in your **Inbox** in chronological order by date and time when received. Unread messages appear in bold text and read messages are in normal text.

2. (Optional) To filter the list to see only unread or read messages in the Inbox, from the **All Messages** list, select **Unread Messages** or **Read Messages**. Or, change the **Inbox** filter to show **Sent** or **Archived** messages.
3. Under **Actions**, click the **Forward**  tool.

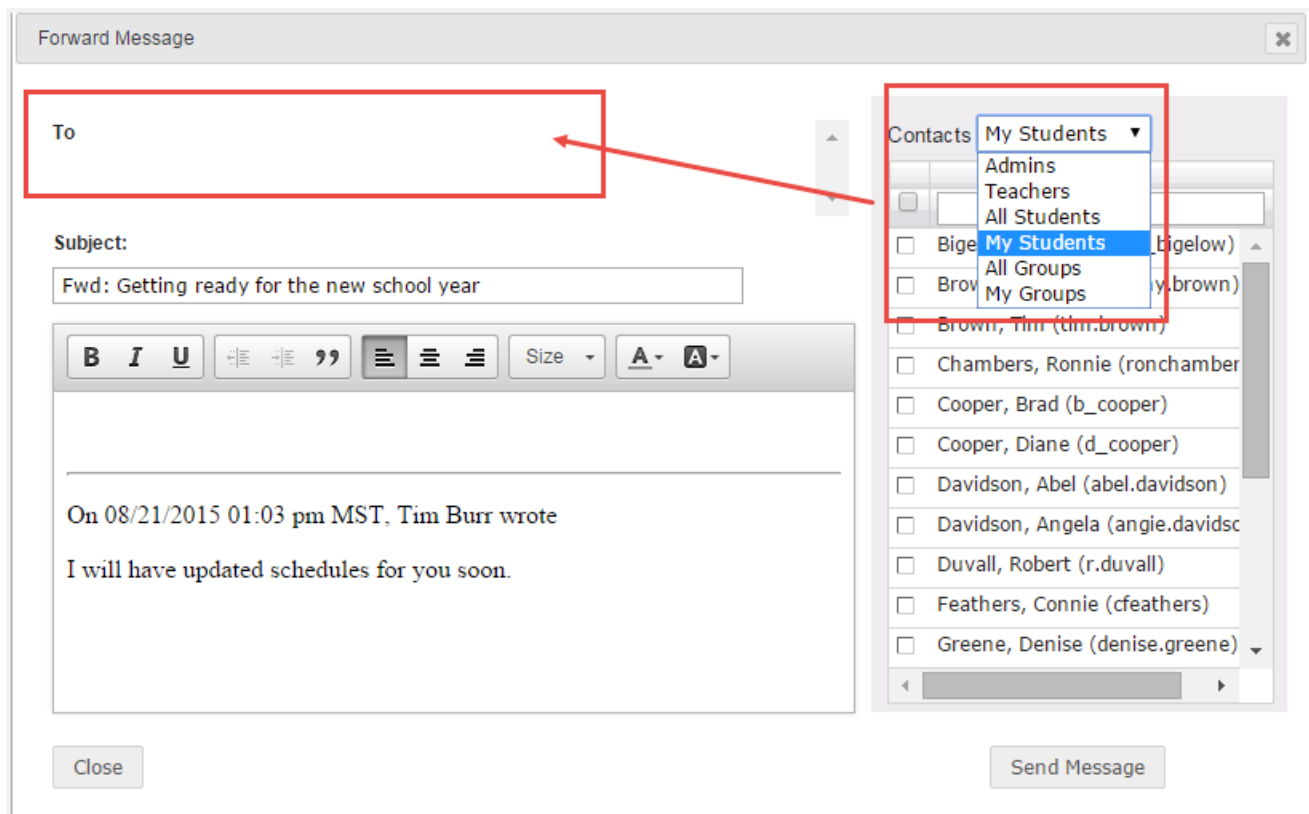

The **Forward Message** page appears with the original subject and message content.

4. To select the message recipients, do the following:

- a. From the **Contacts** list, select a type of contact to filter the list. Depending on your user role, the types of contacts you can select from may include **All Students**, **My Students**, **Admins**, **Teachers**, **All Groups**, and **My Groups**.

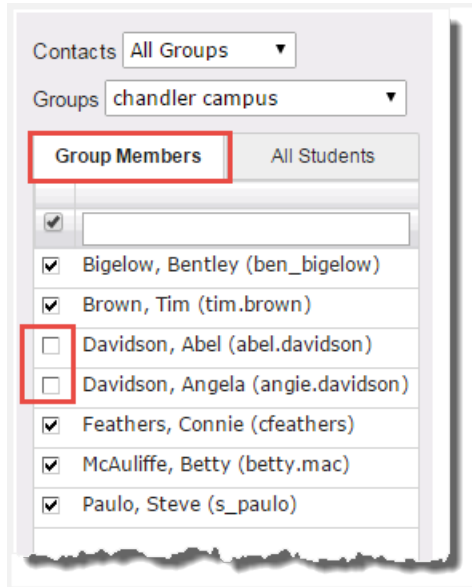

Or

In the search field, start entering the first few characters of the person's name or username.

The screenshot shows the 'Forward Message' dialog box. The 'To' field is highlighted with a red box. A red arrow points from the 'My Students' option in the 'Contacts' dropdown menu to the 'To' field. The 'Subject' field contains 'Fwd: Getting ready for the new school year'. The message body shows a quote from Tim Burr dated 08/21/2015. The 'Contacts' list on the right includes various users and groups, with 'My Students' selected in the dropdown.

- b. If you selected either **All Groups** or **My Groups**, from the **Groups** list, select a group.
- c. Click the check box for the contact(s). By default, if you selected a group, all of the group members appear as selected on the **Group Members** tab and their names are automatically placed in the **To** field of the message. To remove a group member from the recipient's list, clear the check box.

5. You can enter additional comments in the message area and delete any part of the original message content.
6. When finished, click **Send Message**.

Tip: You can forward a message while reading it. Just click the **Forward** button.

Archive and unarchive messages

Because you cannot delete messages in Odysseyware, you may want to *archive* messages to keep your Inbox list manageable. You can archive unopened and opened messages and you can archive multiple unopened messages from the Messages tab.

If desired, you can move archived messages back to your Inbox.

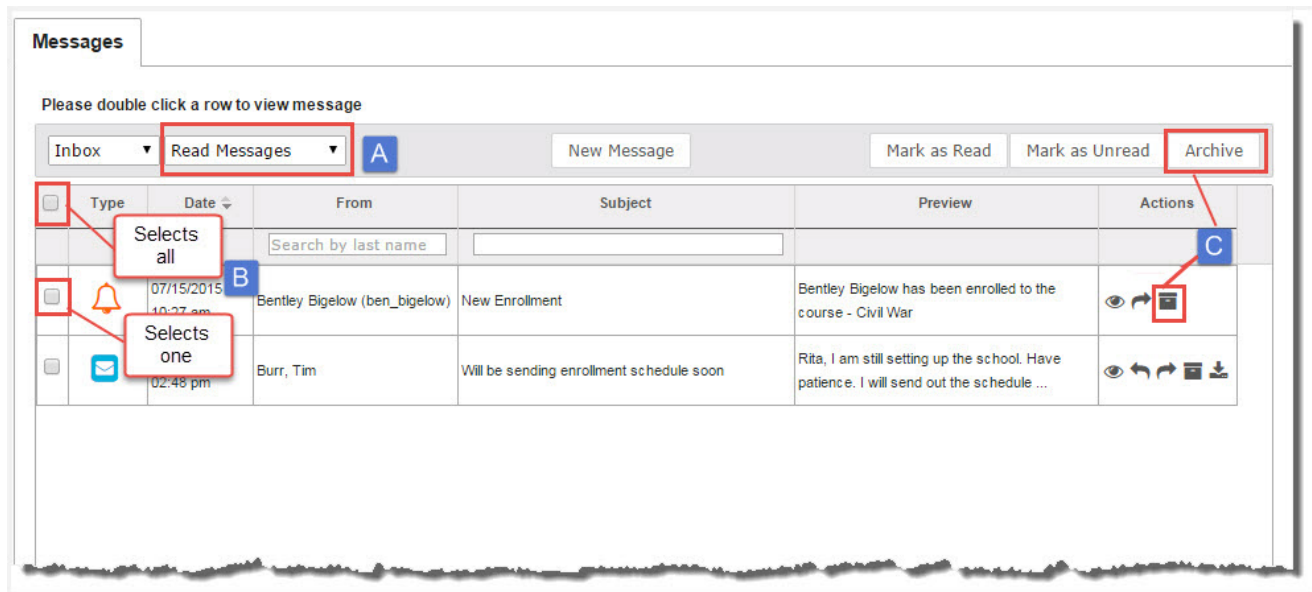

To archive unopened messages from the Messages tab:

1. On the main nav bar, click **Messages**.
2. (Optional) Filter or sort the list to locate the message(s) you want to archive. See ["Filter, sort, and search your Messages list" on page 10](#).

In the example below, the list was filtered to show only read messages (example A).

3. To select a message, click the check box next to the **Type** column, or to select all messages, click the check box in the column heading (example B).
4. Under **Actions**, click the **Archive**  tool, or if archiving more than one message, click the **Archive** button (example C).

Archive and unarchive messages

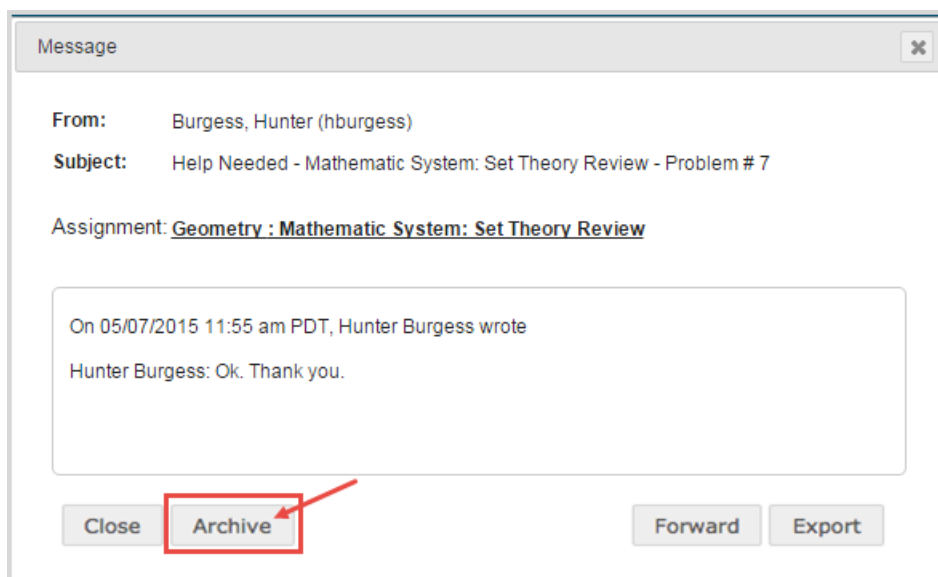

The message(s) is(are) removed from the list and now appear in the Archived list.

To archive an opened messages from the Messages tab:

1. (Optional) Filter or sort the list to locate the message(s) you want to archive. See ["Filter, sort, and search your Messages list" on page 10](#).
2. To read the message, double-click it.
3. To archive the message, click the **Archive** button.

To archive an opened message from the Home > Activity Stream > New Messages tab:

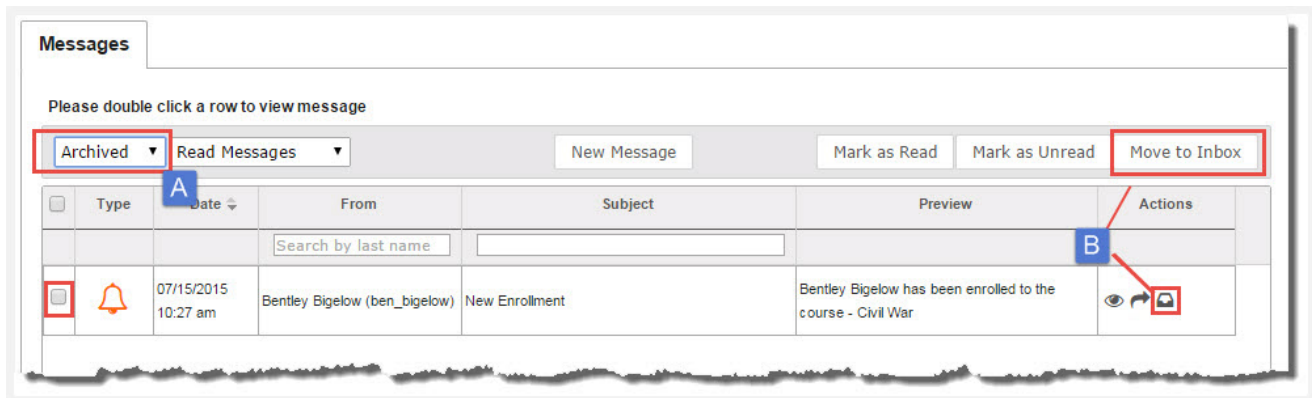

1. On the main nav bar, click **Home**.
2. On the **Activity Stream** tab, in the **New Messages** list, click a message to open it.
3. Click the **Archive** button.

The message is removed from the New Messages list and now appears in the Archived list on the Messages tab.

To unarchive or move archived messages back to your Inbox:

1. On the main nav bar, click **Messages**.
2. To see all archived messages, from the **Inbox** list, select **Archived** (example A).
3. To move an archived message back to your Inbox, select the check box for the message, and under **Actions**, click the **Move to Inbox**  tool. To move multiple messages, select their check boxes and click the **Move to Inbox** button (example B).

The message(s) is(are) removed from the Archived list and now appear in chronological order by date and time received in the Inbox.
