

Manual Grading

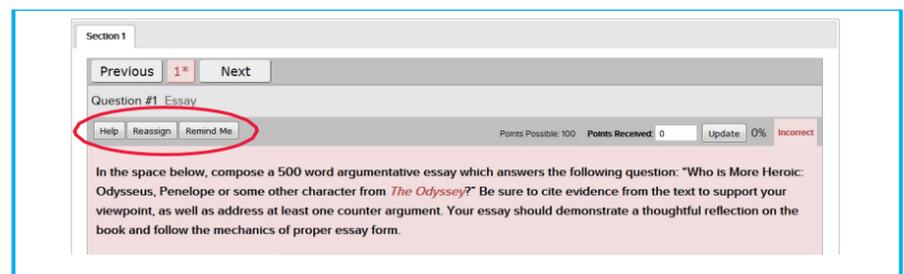

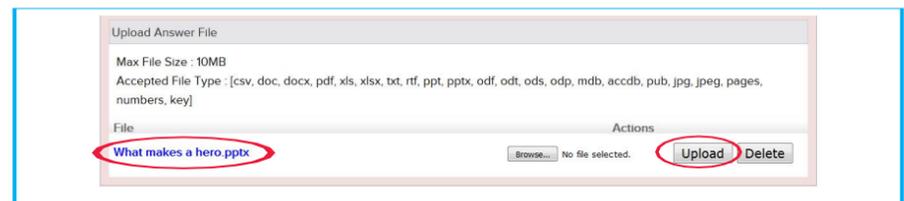

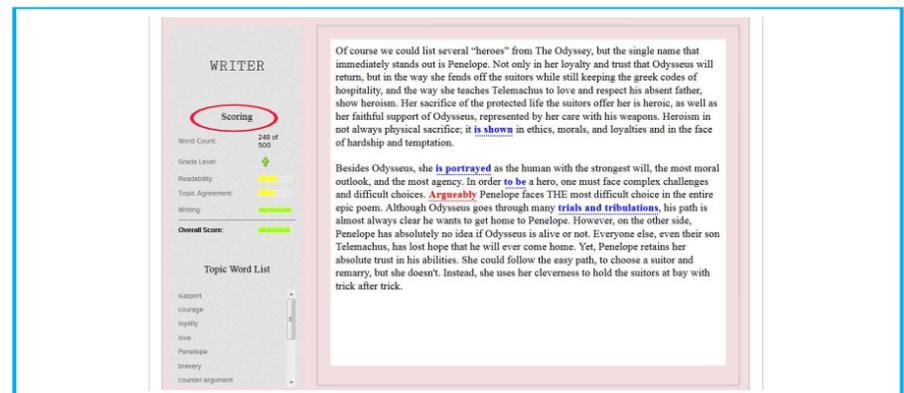

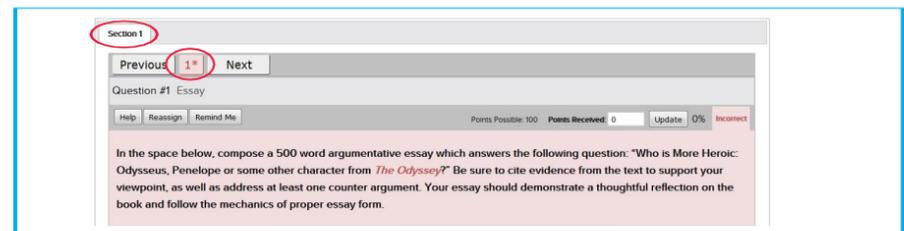

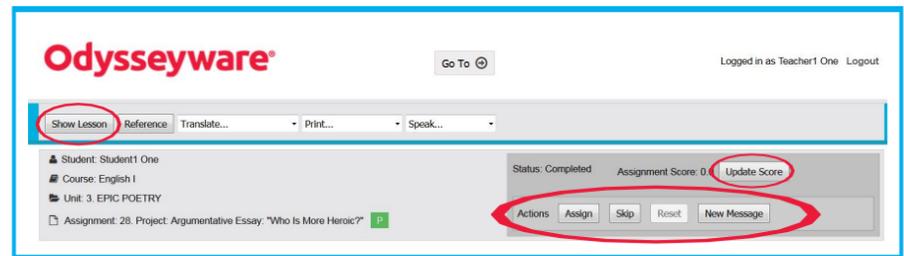

Quick Start Guide

Follow these steps to complete manual grading of student projects and writing.

- 1 When students turn in projects or assignments that include extended writing responses, they see a message that the assignment will be sent to the teacher for grading.
- 2 The teacher of record for the course will receive the **Grade Assignment** action in the **Actions** box on the Home page. Click the link in the Actions column to view the assignment in the Gradebook.
- 3 At the top of the page in the Gradebook view, you will see buttons that will allow you to **view**, **assign**, or **skip** the lesson, and/or to send a **message** to the student. You can click the **Update Score** button to enter a grade for the entire assignment, or you can grade each item individually, which is discussed below.
- 4 Under the **section** tab(s), you will see the **question numbers**. Questions marked with an **asterisk** require manual grading.
- 5 Next you will see the student's writing. If the prompt required the student to write 125 words or more, you will also see the **Writer scoring** feedback. The information here is for your reference only - you may choose to use these suggestions to help you determine an appropriate score. Hover over the meters to view more information.
- 6 If your student has chosen to **upload** a file of work completed outside of Odysseyware, you will see that file at the bottom of the page. You can also choose to upload a file for the student to view.
- 7 If you are not ready to grade the assignment, click the **Remind Me** button to restore the action on the Home page. If you want the student to revise the writing, click the **Reassign** button under the question number. Use the **Help** button to attach a message to the question with feedback for revision. If you are ready to grade the assignment, view the **Points Possible**, enter the number of points you'll be awarding in the **Points Received** box, then click **update**.
- 8 You can also grade the assignment directly from the **Gradebook**, without clicking the action. After searching for the student, open the course and unit view, then find the assignment with a status of **Completed** and an **exclamation point** in the score column. Click the assignment to open it, and then follow steps 3-7.
