

MyPath-Renaissance Integration Enhancements

We're excited to share a new look for the MyPath Renaissance integration. The navigation has been simplified throughout the interface by consolidating student data views and by separating import details and troubleshooting functions. Combined with a few simple usability improvements, it is now easier to find student information and monitor Renaissance STAR data. [Click here for additional help getting started](#) with MyPath-Renaissance.

Navigation Enhancements

- 1 Imported STAR Scores**
View student STAR data successfully imported and linked to your Edgenuity student accounts.
- 2 Import Status**
View all system imports (automatic and manual); can be filtered to specific test date range.
- 3 Unmatched Records**
View unmatched STAR data by Renaissance ID that is not linked to any student in Edgenuity.
