## Release Overview

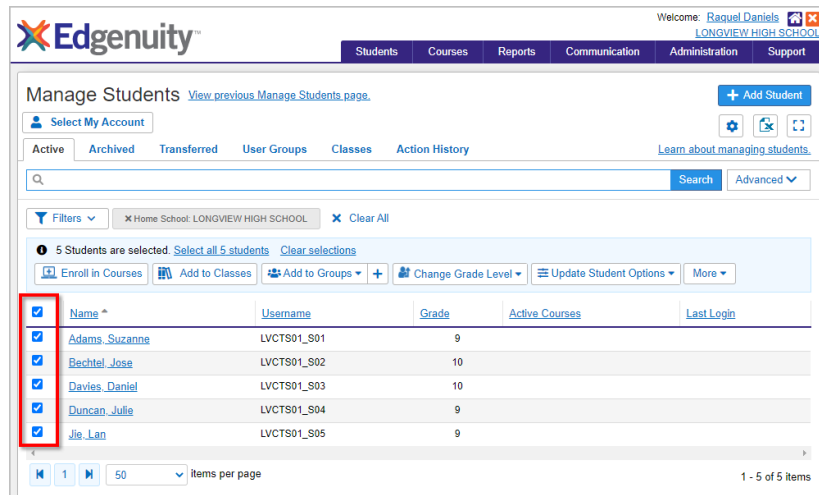

To help support teachers managing a large number of Classes, the following updates allow for easy searching to locate specific Classes, as well as re-using Class names when they've been removed from use. Also in this release is an update for students using third-party screen readers to help support their learning accommodations.

### Manage Classes: New Searching Available

- From the **Students** tab, select **Manage Students**.

- Select one or many students that you want to add to your class.

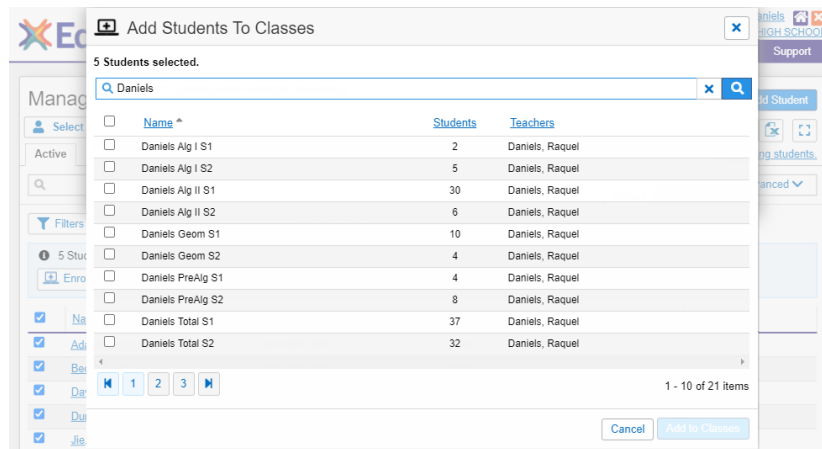

## Release Notes: Enhancement: Manage Classes & Screen Reader

- Click the **Add to Classes** button from the **Action Bar Menu**. Depending on your permissions, your action bar options may vary from this example. It may be located under the More option at the end of the action bar.

- Use the search bar to locate your specific Classes, then select one or more Classes and follow the prompts to add your students to those selected Classes.

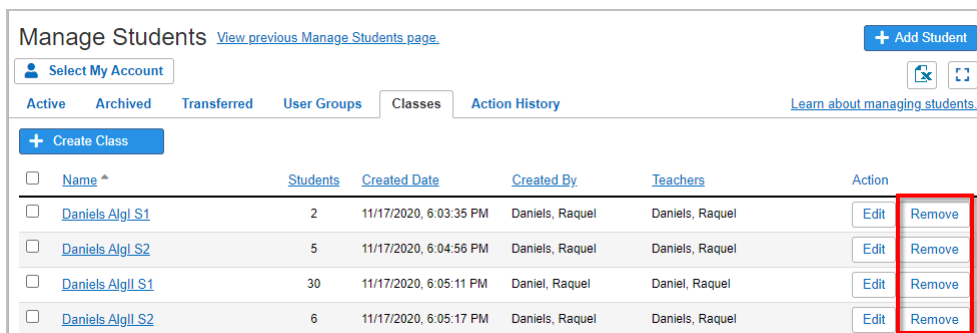

### Information!

- For teachers who have more than 20 total Classes, the Classes filter on the Manage Students page will have a search box. If you've never created or have less than 20 Classes, your experience remains the same.

## Removing Classes

A change to the button was made to clarify the action that occurs when removing Classes. Previously labeled **Archive**, the **Remove** button now correctly reflects that the class will be removed and can no longer be accessed.

Class names that were previously archived, or moving forward removed, can now be reused.

## Release Notes: Enhancement: Manage Classes & Screen Reader

### Additional Support for Screen Readers

When students use external screen readers to support their learning, they will see a new button that allows the screen reader to skip directly to the main content for reading aloud, streamlining the learning process. This new enhancement, a **Skip to Main Content** button, appears at the top of the screen as shown below.

#### Information!

- This enhancement is only available to students using external screen readers. It is not available for use with Edgenuity's built-in read-aloud function.

The screenshot shows the 'Financial Math - MA2007' interface. At the top right, a button labeled 'Skip to main content' is highlighted with a red box. Below the header, the main content area is titled 'The Financial Plan' and includes a 'Vocabulary' section with 'Active' items. A search bar contains the word 'income'. Below this, there is a 'Definition' section with a play button icon and the text: 'Income is money coming in through wages, allowance or other sources.' Underneath is an 'Usage' section titled 'Baseball Game Day Gross Income' which contains two tables: 'Ticket Sales' and 'Souvenirs'.

Ticket Sales	
Category	Amount
Bleachers	\$ 2,000,000.00
Loge	\$ 9,600,000.00
Grandstands	\$ 17,250,000.00
Luxury Boxes	\$ 25,000,000.00
<b>TOTAL Ticket Sales</b>	<b>\$ 53,850,000.00</b>

Souvenirs	
Category	Amount
T-shirts	\$ 23,000.00
Hats	\$ 45,000.00
Plush	\$ 6,500.00
Baseballs	\$ 2,375.00
<b>TOTAL Souvenir Sales</b>	<b>\$ 76,875.00</b>

The screenshot shows the 'Agribusiness Systems' interface. At the top right, a button labeled 'Skip to main content' is highlighted with a red box. The main content area is titled 'Course Map' and includes a 'Quiz' section with an 'Est. Time: 10m' and a 'Project' section with a '100%' completion rate and 'Your Time: 52m 17s / 2 attempts'. A sidebar on the right lists various units and projects.

The screenshot shows the Edgenuity dashboard. At the top right, a button labeled 'Skip to main content' is highlighted with a red box. The dashboard displays four course cards: '2018 AP Spanish (Sem 277)', 'Agribusiness Systems', 'Civil War', and 'Financial Math - MA2007'. Each card shows a progress bar and a 'Next Activity' button.
