Release Overview

The February 9th, 2021 release brings a new way to troubleshoot 3rd party assessment IDs for students.

View & Export Assessment IDs

We're excited to announce that educators can now more easily view and export assessment IDS from NWEA, Scantron or Renaissance. This will make troubleshooting more easy if a score is not importing correctly.

Step by Step Directions

- Assessment IDs are available as a column on the Manage Students page for all educators
- 1. From the **Students** tab, select Manage Students.
- Click on the Configure Columns cog icon in the upper right corner and select one or more columns to display.
- Click Save Configuration to update the page with the chosen columns.
- You can export this information by clicking the Spreadsheet icon in the upper right.
